Bloque 2: Simulación de Carga de Trabajo y Monitorización

Juan Reche Aguilar

17 de mayo de 2026

Índice

1. Ejercicio 4.2.1. Tarea periódica con cron. 2

1. Ejercicio 4.2.1. Tarea periódica con cron.

```
juan@juan-HP-EliteBook-Folio-1040-G2:~/Documentos/INFOMATES/tercero/ise/bloque2$ crontab -e
no crontab for juan - using an empty one

Select an editor.  To change later, run 'select-editor'.
  1. /bin/nano        <---- easiest
  2. /usr/bin/vim.tiny
  3. /bin/ed

Choose 1-3 [1]: 1
crontab: installing new crontab
```

Figura 1: Ejecucion de crontab.

```
  GNU nano 7.2                         /tmp/crontab.PMSeOs/crontab
# Edit this file to introduce tasks to be run by cron.
#
# Each task to run has to be defined through a single line
# indicating with different fields when the task will be run
# and what command to run for the task
#
# To define the time you can provide concrete values for
# minute (m), hour (h), day of month (dom), month (mon),
# and day of week (dow) or use '*' in these fields (for 'any').
#
# Notice that tasks will be started based on the cron's system
# daemon's notion of time and timezones.
#
# Output of the crontab jobs (including errors) is sent through
# email to the user the crontab file belongs to (unless redirected).
#
# For example, you can run a backup of all your user accounts
# at 5 a.m every week with:
# 0 5 * * 1 tar -zcf /var/backups/home.tgz /home/
#
# For more information see the manual pages of crontab(5) and cron(8)
#
# m h  dom mon dow   command

*/1 * * * * logger -t "ISE" "JRA: $(date) - $(uptime)"
```

Figura 2: Contenido del archivo de tareas cron.

```
juan@juan-HP-EliteBook-Folio-1040-G2:~/Documentos/INFOMATES/tercero/ise/bloque2$ journalctl -t ISE
